Foreign News .- The Asia arrived at New York at nine o'clock this morning. See our telegraphic news.

THAT TENDER OF A RESIGNATION .- " Observer." of this city, telegraphed the New York Couries and Enquirer that Mr. Webster had tendered his resignation of the State Department to President Fillmore, who declined accepting it, but consented that Mr. Webster might go on the voyage he contemplated. Mr. Webster's friend. editor of the New York Commercial, telegraphed the Secretary of State to know if the statement of "Observer" was true. Mr. Webster telegraphed back as follows: " Contradict. Not a word of truth in it."

It now has come to light that Mr. Webster did, on two occasions, tender his resignation of the State Department to Mr. President Fillmore, and that said resignation is held in abeyance, to be accepted or not, as circumstances during Mr. Webster's absence may warrant.

We have but one exclamation to make, to wit: "Oh how this world is given to ---."

THE GARDINER CLAIM .- The newspapers now generally agree that there is not " one word of truth in it"-whether in the late report or the claim itself, some of them do not let us definitely understand. For us, we do not believe there is "one word of truth in it" either. Who says we are not of the orthodox way of thinking? Gen. Jarero's letter in the Intelligeneer of yesterday morning is very diplomatic; but the Grand Jury, we doubt not, understands it better than the public does!

ERRONEOUS REPORT .- It is with great pleasure we are enabled to state, that the report of the death of Colonel LEE, Commissioner of Indian Affairs, is incorrect, and that our friends of the Baltimore Sun have been led into an error by the identity of names. The Colonel LUKE LEE who died in Minnesota, in consequence of a fall from his horse, was the Indian Agent, and an uncle of the worthy Commissioner of Indian Affairs, from whom, and another of the party to treat with the Sioux, we understand letters of a late date were yesterday received at the India Bureau, which speak of his health as unusually good. We are happy in being thus enabled to remove so unwelcome an impression from the minds of the many friends of the Commissioner.

THE STEAM-MAIL MILLIONAIRES who are now giving excursions and dinners to the President and Cabinet, and taking Mr. Secretary Webster and Postmaster General Hall to New York, in the "Golden Gate," free of expense, are all, every mother's son of them, as we are informed by one who professes to know, going to support, with all their force and power, Stephen A Douglas, the "Young Giant of the West," for President.

Sharp men, these steam-mail millionaires: they know how to "run with the hare and hold with the hounds."

ARROTT LAWRENCE. - The Philadelphia Evening Bulletin censures, in just terms as we think, the participation by our Minister and his family James. "Franklin," the Bulletin remarks, "when at the Court of France, lost nothing by adhering to his republican habits; and we think Mr. Lawrence, if he had imitated this example, would have been not less respected. Mummery is not in keeping with republican habits. Even diplomatic courtesy scarcely requires that an ambassador should demean himself as a man and disgrace his nation, by tricking himself out in costume like a stage-player, and that, too, when he has children old enough to be ashamed of the transformation. Nevertheless, if Mr. Lawrence had, in going to this ball, assumed a costume not improper to be worn, in his character of American ambassador, we should have waived remark. But he did the very opposite of this. He dressed himself, nominally, as Governor Winthrop, of Connecticut, but really. as some theatrical mountebank; and he caused his wife to dress herself as Anne Dudley, in a style equally at variance with truth. What, in which the newspapers speak so profusely in describing these costumes, to do with the staid Governor Bradstreet."

There are many men in our country worthy of representing her in any foreign country, who cannot afford to mingle in such scenes and who would not be at home in them were they to make the attempt. In Europe the dancing-master is a necessary instructor of a diplomatist. In this country a minister is or should be taken from the plough, the countingroom, or the attorney's office. Of the elegance of courts he may profess himself ignorant without a blush. We shall even be proud of the representative who will dare to own that he is not acquainted with the elegant vanities so familiar to the aristocrats of Europe.

House-Breaking. - Some adroit thief entered the drug store of Mr. T. C. McIntire, corner of Seventh and I streets, on Saturday night last, and robbed the drawer of \$20 in silver. The thief is strongly suspected, and will not proba-

CORNER-STONE OF A CHURCH. -Address by B. B. French.—At Charlestown, Jefferson county, Va., on Saturday last, the corner-stone of a Presbyterian Church was laid by the Masonic Order. We learn from the Spirit of Jefferson that "the attendance of Brethren and strangers from all parts of the State was very large, and numbered many of the most important officers in the Masonic fraternity. The procession presented a most beautiful appearance, and numbered a very respectable representation from the Sons of Temperance and the Cadets of Tem-

"The address of Mr. Benjamin B. French was highly appropriate, and elicited throughout its delivery the most intense interest, and when it had been heard the highest commendations. In very many respects, the address was most admirably suited to the occasion, and, for beauty of composition or solidity of thought, is certainly superior to any address of the kind that we have ever before heard. Mr. French is a distinguished citizen of Washingtov.-a gentleman of considerable literary and scientific attainment—and as deserving for the many noble and generous traits that adorn his social life and private intercourse, as he is eminent among our public men for his great practical good sense his sound discretion and unerring judgment.

"The Rev. Mr. Martin, of the Methodist E. Church, performed the religious services incident to the occasion, and in a manner most eloquent and appropriate."

A DISCOVERY .- "Now I sees into it," said country nigger the other day as he came out of confectioner's laboratory. "Sees into what?" said his little bow-legged companion. "How dey keeps de ice in de summah time." "How does dey do it, den ?" "Why, dey salts it up like fresh pork; didn't you see 'em do it?' Laws a macy, I know'd dat long nuff ago!" responded the little nigger; and the two philosophical investigators pattered along with a feeling of satisfaction known only to those who are in the successful pursuit of knowledge under difficulties.

FATAL DUEL .- On the 12th instant a due was fought at New Orleans, between Dr. Thos. Hunt and J. W. Frost, esq. At the first fire Frost received a ball through his heart and fell dead. The quarrel grew out of the nomination of a congressional Whig candidate, Dr. Hunt's brother being in nomination, and Mr. Frost (who was the editor of the Daily Crescent) being in favor of another person.

CHURCH DESTROYED .- Bishop Blanc, of New Orleans, obtained through the court possession of Trinity (Roman Catholic) Church, claimed by the priest Guidirowesky and a portion of the congregation, when it was instantly fired and destroyed by an incendiary. Loss \$25,000. This occurred on the 12th or 13th.

Us.-We are sometimes almost sorry that we ever assumed the management of Governmental affairs here at Washington; not that we cannot accomplish the task, but because of the cares it imposes; for we would not have our brows knitted and our forehead wrinkled, all in the bloom and beauty of our manhood-no, not for the whole United States, and South Carolina to boot! But we are in for it, and must go through with all we have assumed.

Mrs. Bartholomew, of Harlem, Ill., was instantly killed by lightning on Friday night of last week, while sleeping in the same bed with her husband and child.

In the seventh (Stephens') district Col. David Bailey in the Secessionist candidate. In the fifth district Col. E. W. Chastain ha

SHOOTING IN BALTIMORE.—Officer Campbell was yesterday in the act of distraining the goods of Cochran & Marsh, when Marsh fired three shots at Campbell and his assistants, and wounded Campbell severely, but not dangerously, in the knee.

RAILROAD ACCIDENT AND LOSS OF LIFE .-The morning train of cars from York, due at fact, had the velvet, damask and jewels, of Baltimore at half-past eight o'clock yesterday morning, did not arrive till noon. The detention was caused by a burden train running off the Reuben Winthrop, or with the plain wife of track on the bridge near Burns's, demolishing the bridge, and precipitating the tender and several of the cars in the stream below. Mr. Clark, the fireman on the train, was killed. Mr. Meredith was injured so as to leave but little hope of his recovery.

THE ANNUAL COMMENCEMENT of the Columbian College took place this morning in the E street Baptist church. At the appointed hour the church was finely filled, a very large proportion of the beauty of the city being in atendance. In addition to the officers of the college on the stage, we noticed Mr. Lenox, Mayor of Washington.

The procession, embracing the President, professors, and students of Columbia College. formed at the Tenth street Baptist Church, accompanied by the principal and teachers of the Central Academy, conducted by the Messrs. DEAR SIR: Being on the point of leaving the city, I
avail myself of a few idle moments to thank you kindly
for the medicine you sent me, and which has restored me
to the use of my limbs. I beg you to send me four bottles more, to carry on my voyage. Since I had the fortune to use Dr. Hampton's Vegetable Tineture my confidence is so strong that, in gratitude to the proprietors of
said medicine, I beg you to present my respects to them,
and induce them to make it more publicly known as a
sure Rheumatic cure. Having called on me on the 19th
of April last, and seen me prostrated on my bed, useless
in all my limbs, you can appreciate nearly as well as myself the prompt relief I received from Dr. Hampton's

Tincture, and I am positive had it has been in bed.

It is really a pity this specific should not be approved by medical men, and like all patent drugs it should suffer the imputation the public generally give to such preparations. I myself, who was always opposed to a patented specific, took this medicine with reluctance, and without confidence in it, and it was only through your disinterested, friendly recommendations, and my critical situation, that induced me to try this really beneficial Vegetable Timeture.

Tincture.

You may inform Messrs. Mortimer & Mowbray that they are at liberty to make use of my name in the support of the good effects of Dr. Hampton's Vegetable Tincture, as it has cured me, in five weeks, of a chronic hammatory Rheumatism, contracted under tropical climates, and of seven years periodical duration. I have only used three bottles, and find that even the deformed parts of my hands are first returning to their former natural appearance.

of my hands are hat returning to their former natural appearance.

I have been under the treatment of several physicians in London and Paris, without any apparent benefit; also, while in New York, having tried the Thompsonian and Homospathic remedies, after having been tormented with galvanic batteries, cold and aromatic baths, and hundreds of internal and external medicines, all to no effect. I am, so far, cured by this Hampton's Vegetable Tineture only. Therefore, my dear six, accept of the assurance of my gratitude, and believe me your well-wisher.

WONDERFUL CURE OF HEREDITARY SCROFULA! WONDERFUL CURE OF HEREDITARY SCROFULA!

This certificate is from the pen of a gentleman whose name appears on the journal of Congress—one who is extensively and favorably known:

It affords me pleasure to state that Dr. Jesse Hampton's Tincture has effected a most extraordinary cure of my slave boy Albert. The patient was three years old, and had the Scrofula—(his father is scrofulous.) The boy was a moving mass of sores from head to foot; the upper lids of the eyes were much swollen, and turned inside out, exhibiting horrible mattering ulcers, that protruded over the eye-ball so as to produce blindness. It is strange, yet true, this child—that I felt resigned to see die as a relief from suffering—has been restored to health under the treatment of Dr. Hampton.

THE Proprietors, Messrs.
